Naval Facilities Engineering Command
Attn.: Mr. Gary Munekawa
Code 09ER3GM
900 Commodore Drive, Building 101
San Bruno, California 94066-2402

Dear Mr. Munekawa:

**TREATABILITY STUDIES UNDER THE UNIVERSITY OF CALIFORNIA CONTRACT
AT NAVAL AIR STATION, ALAMEDA**

The Department of Toxic Substances Control (Department) request a meeting in January 1995 with the Navy and representatives of the University of California regarding planned treatability studies at Naval Air Station, Alameda. The purpose of this meeting will be to discuss the schedule, scope, and regulatory requirements for the planned treatability studies. The early involvement of the Department and the Regional Water Quality Control Board in studies which may affect the remediation at hazardous substance release sites is crucial.

The Department suggest this meeting take place at 9:00 a.m. on January 10, 1995 at the Department's Berkeley Office. Please call me to confirm this date at (510) 540-3809.

Sincerely,

Thomas P. Lanphar
Project Manager
Office of Military Facilities
